

Reference nr. 1869 : Dragonfly Springs Wetland Sanctuary

Plant Nursery Assistants & Garden Care of Sanctuary

(Also fits teams) The Sanctuary Project keeps getting bigger by the day and many hands make light work. It is not "just" a conservation project, it is a location for outdoor Environmental Education work as well. We have been hosting, pre- school , Primary School. PolyTech students , Sea Scouts , Girl Guides & Gardening groups, and are planning to have a Public Open Day "Sandwiches in the Sanctuary" in November.

There are many different roles available for volunteers at the Sanctuary:

- Help propagate native plants to supply the sanctuary and other community environmental enhancement projects.
- Maintain and protect existing plantings by weeding, tree releasing and pest plant control.
- Mowing, Line Trimming etc.
- Assist with fitting out a container being converted into an information / education centre & lunch room for volunteers.

Duration: **Long-term**

Area: **Whangarei**

Activity: **Gardening, conservation and ecology**

3 volunteers needed

Training

On site training in seed & cutting plant propagation. Gloves and tools provided.

Specific requirements

Enthusiastic and willing workers, gardening skills a help but not essential. The sanctuary is a friendly social environment, the team meets mainly on Thursdays from 9am to 4pm (if you can make it once a fortnight or once a month do get in touch as well). Tea, coffee and good conversation provided (sometimes there are cookies and cake as a bonus).

For Team Volunteering; special days/dates and requirements can be catered for. Contact us at Volunteering Northland.
