

## Reference nr. 2440 : Bream Head Conservation Trust

### Bait Station & Possum Trap Service

We are looking for fit, committed individuals able to work independently to join our team of trappers working in the Bream Head Scenic Reserve at Whangarei Heads. The role involves checking, clearing, re-baiting toxin stations and possum traps and basic station and trap maintenance in the Bream Head Scenic Reserve. Recording trap catch and/or maintenance data is required.

#### Training

Onsite training will be provided. No license is required to load the toxin used.

#### Specific requirements

A good level of fitness and some "bush saviness" is important and the ability to carry up to 10kg (includes own personal items such as lunch and drink bottle etc). Bait station and possum lines will need to be checked and re-baited once per month (within the first two weeks of each month). The lines are approx 2 – 3 kms in length and will take approximately 3-4 hours to complete. Most are not formed earth/gravel tracks, but marked lines through cut vegetation. Time to complete will vary depending on level of fitness and weather conditions. Some of your own equipment is required including a fully charged and working cellphone; sturdy footwear and appropriate outdoor clothing; small day pack for food, water, cellphone & rain jacket. Waist pouch bag will be provided for carrying toxin, bait, tools, etc. Minimum commitment of 3 months is required - a longer term commitment preferred.

Duration: **Long-term**

Area: **Whangarei**

Activity: **Gardening, conservation and ecology**

5 volunteers needed
