

Reference nr. 2651 : Kiwi Coast

Trappers

We welcome new trapping volunteers to join a roster that takes you **only 4 hours once a month** and timing can be flexible between work days and weekends. Get out into the hills and get fit checking traps to contribute to the survival of 100+ kiwi in the Brynderwyn Hills.

The vision of **Kiwi Coast** is one of thriving kiwi, safely roaming throughout Northland, nurtured and cared for by Northlanders. We are creating New Zealand's first modern day kiwi corridor. Last year we removed nearly 1/2 a million pest animals and plants -so help us to make a difference.

The **Kiwi Coast** is a collaborative initiative that links over 160 community-led conservation projects, iwi and hapu, schools, forestry companies, government agencies and organisations in the shared vision of restoring the health of our native forests, helping native wildlife thrive and increasing Northland kiwi numbers.

Training

Regular trapping workshops and one on one training in trap setting, clearing and phone app use for reporting.

Specific requirements

Moderate fitness, keen to work outdoors.

When: Any time

Duration: **Long-term**

Area: **Bream Bay**
